Charles Pinckney Speaker 1736. William Bull 1740 Andrew Rutledge 1749.

[NUMB. 811.]

THE *South-Carolina* Gazette.

From MONDAY *November* 20th, to MONDAY *November* 27th, 1749.

CHARLES-TOWN, *November* 27.

On Tuesday last the General Assembly of this Province met pursuant to Adjournment. And the Commons House having chosen ANDREW RUTLEDGE, Esq; for their *Speaker*, (in the Room of the Honourable WILLIAM BULL, jun. Esq; who, since their last Meeting, had been sworn in and taken his Seat in His Majesty's Honourable Council) on Thursday they presented that Gentleman to the Governor, who was pleased to approve their Choice, and made the following *SPEECH* to both Houses, *viz.*

Honourable Gentlemen of His Majesty's Council, Mr. Speaker, and Gentlemen,

I MEET you again in General Assembly with great Pleasure and Satisfaction, being convinced, from Experience, that I shall have your ready Assistance in dispatching chearfully the Public Business, and your Advice in whatever may promote the true Interest of the Province. In a Time of War, it appeared discouraging to attempt, and difficult to succeed, in any Scheme we could form for our Service: But that being happily ended, and the Clouds that threatened a fresh Storm in the *North*, being also dissipated, all is now calm and serene: Let us then employ the present Peace, Plenty and Felicity, that God blesses us with, in improving the Country, and fixing, as far as human Prudence can reach, its future Happiness.

AS the Security and Riches of any Country, arise from having Numbers of People usefully employed, I think it ought to be our first Care to invite over, and encourage more Inhabitants. *Germany* has been long the Seat of War, and has severely felt the Calamities of it; and it may be presumed, there are many of her People who wish for a Place of Rest, in which they may enjoy the Fruits of their own Labour, as many of their Countrymen do here, who sit undisturbed under their own Vine, and their own Fig-tree; And it would certainly be attended with good Consequences, if, besides the Bounty which we give to Foreign Protestants upon their first Arrival, we were in a Condition to advance them Money upon Loan, at a moderate Interest, to pay their Passage.

OUR Country abounds in Cattle, and lies commodiously to the Sugar Colonies and Foreign Settlements, for a Market; but being obliged to cure our Beef with *American* Salt, which is of so corrosive a Nature, that it wastes what it should preserve, it is thereby rendered inferior in Quality, as it is said, to that of our Northern Neighbours, who have the Priviledge of importing Salt from any Part of *Europe*: This Priviledge, I am in Hopes, may also be obtained for us, upon proper Application.

WE have, for many Years, had a Licence of carrying our Rice directly to the Southward of *Cape Finisterre*, which has been a great Benefit to us: A Licence that we have never abused, may make us hope, to obtain such an Extension of it as has been granted to the *West-India* Islands for their Sugars.

I am to acquaint you, that a few Days ago, I received His Majesty's Commands, to lay before Him an Account of the Tenor and Amount of all the Bills of Credit which have been created and issued in this Province, and now outstanding; distinguishing the Amount of the same in Money of *Great-Britain*, both when they were issued and at present; and also the Time fixed for calling in, sinking, and discharging such Bills; and the Funds appropriated for that Service. It is highly necessary, that this Account be stated with Clearness and Candour; and, I hope, I shall have your Assistance in it: Upon this may depend the Fate of the Act *for emitting* TWO HUNDRED *and* TEN THOUSAND POUNDS *Currency*, which I am informed, by the Lords Commissioners for Trade and Plantations, has lately been under their Consideration; and I hope it will appear, by these Accounts, that, since my Arrival, we have sunk, at the Periods fixed by Law, and by the Funds appropriated for that Purpose, no less than *One Hundred* and *Thirteen Thousand Pounds*; a greater Sum than there is legal Currency in the Province: At the same Time we have carried on the Public Service, and supported His Majesty's Government, without incurring any new Debt. To state this Account fairly, to wipe off any Reflections that may have been thrown upon us, to set the Public Faith of the Province in a just Light, deserves your serious Consideration; and therefore, I earnestly recommend this Matter to you, and I hope, by the prudent Measures you shall take, we shall still have His Majesty's Approbation of the before-mentioned Act, *for emitting Two Hundred and Ten Thousand Pounds current Money*.

THE Reception and Encouragement that our run away Slaves find at *St. Augustine*, deserves also your Attention. The two Scout-Boats that were taken into Pay, to prevent their Desertion, tho' commanded by Persons well acquainted with the Inland Passages, have not had the desired Effect; but, to make them as useful as possible, I have put them under the Direction of three Gentlemen to the Southward, of Integrity. I complained to the late Governor *Montiano*, of their being harboured there, and he assured me, that he had wrote very fully and favourable to his Court upon that Subject; and I intend, immediately to send a second and more solemn Message to the present Governor: I have also prayed, that His Majesty's Minister at the Court of *Madrid*, may be directed to interpose in this Matter. If there are any other Steps that you may think necessary to be taken, I shall very readily agree to them, being convinced, that unless a Stop be put to this Practice, it may not only prove detrimental, but destructive to the Province.

I shall in the next Place mention some other Things, that depend more immediately upon ourselves. I hope, we shall give some Encouragement to Ship building; it is well known, that our Live-Oak and Yellow-Pine are as good as any in the World; we have plenty of Masts, and the great Convenience of Water Carriage, in every part of the Province, make these Materials come cheap.

LET us still continue to cultivate our Indico, and not be discouraged by an unfavourable Season or a low Price; for, there can be no Doubt, but that the *French* will endeavour, for some Time, to undersell us, in order to keep this valuable Commodity to themselves. If it is apprehended, that we are not hitherto perfect in this Manufacture, it may be adviseable, to give suitable Encouragement to some skilful Person (either from the *Spanish* or *French* Settlements) to become a Settler amongst Us.

OUR Silk is of as good a Quality as that of any other Country, and I wish we could fall upon some Method to encrease the Quantity, both of that, and of Cotton.

DURING the War, we built Forts in several Parts of the Province, and we fortified *Charles-Town* at a very considerable Expence; we also built a Powder-Magazine, an Armory, and Barracks for the Soldiers: And, I hope, you will be now of Opinion, that a commodious House for the Meeting of the General Assembly, that a Court House and public Prisons, are absolutely wanted. I also earnestly recommend to you, to take under your Consideration, how useful a Light-House would be, upon the *Coffin-Land* or thereabout, for Want of which the Vessels bound for this Port are often in great Danger, and some have been lost.

I cannot

I cannot conclude without acquainting you, that the *Indian* Nations around us, are at present pretty much attached to the *British* Interest: And, I am in great Hopes, that they may be kept so, by a prudent Distribution of His Majesty's annual Presents, and by your continuing to co-operate with me, and to strenghten my Hands in this important Business.

In the Council-Chamber,
Thursday Nov 23d, 1749. *JAMES GLEN.*

To His Excellency JAMES GLEN, *Esq; Captain-General, and Governor in Chief, in and over His Majesty's Province of* South-Carolina.

The Humble ADDRESS *of His Majesty's Council, in General Assembly.*

May it please Your Excellency,

WE His Majesty's most Dutiful and Loyal Subjects, the Council of this Province, return Your Excellency our hearty Thanks for your Speech delivered to us at the opening of the present Session, and for the Pleasure and Satisfaction which Your Excellency is pleased to express, at meeting us again in General Assembly.

WE are very sensible, that the general Peace, which his Majesty has graciously procured for his People, and which we now enjoy, calls upon us, with the rest of our Fellow-Subjects, to acknowledge our Duty and Obligations to His Majesty, for this, among many other Instances of His Goodness to us; as it also does, to demonstrate our just Sense of the Royal Favours, by using our utmost Endeavours for the further settling this His Majesty's Province, improving its Trade, and establishing its Credit upon the best Foundations: Being convinced His Majesty is best satisfied, when His Subjects are in the secureest and most happy Situation.

THE Measures which, for attaining these great Ends, Your Excellency is pleased to recommend to us, shall be the Object of our immediate and most serious Attention: And we assure Your Excellency, we shall continue to contribute chearfully, all that is in our Power, for the Service of our King, and the true Interest of our Country.

In the Upper House of Assembly, *By Order of the House,*
the 25th of Novr. 1749. *JOHN CLELAND.*

To which *ADDRESS* His Excellency was pleased to make the following Answer, *viz.*

Honourable Gentlemen,

I THANK you for this Loyal Address, in which you so properly express your Sense of His Majesty's Goodness. If my Administration is rendered easy to myself, acceptable to His Majesty, or agreeable to the People, it must reflect Honour upon you; for, it is by your Counsel and Advice, in a great Measure, that I conduct Affairs: A Method that I determine still to pursue.

To His Excellency JAMES GLEN, Esq; Governor in Chief, and Captain-General, in and over His Majesty's Province of South-Carolina.

The Humble ADDRESS *of the Commons House of Assembly.*

May it please Your Excellency,

WE, His Majesty's most dutiful and loyal Subjects, the Commons House of Assembly of this Province, beg Leave to return Your Excellency our unfeigned and hearty Thanks, for Your Speech delivered to us at the opening of this Session.

THE Pleasure with which Your Excellency again meets us in General Assembly, with the Confidence You are pleased, from Experience, to express of our ready Assistance in chearfully dispatching the Public Business, and giving our Advice in whatever may promote the true Interest of the Province, give us great Satisfaction.

AS we are met with no other Views but what may tend to the Happiness and Prosperity of our Country, we beg Leave to assure Your Excellency, that nothing shall be wanting, on our Part, which may contribute to these good Purposes; and we hope, from a good Harmony between the different Branches of the Legislature, that no Measures can possibly be entered into, which are not apparently calculated for the general Welfare of the good People whom we represent.

WE acknowledge, with Gratitude, Your Excellency's great Care for our Happiness, and Your extraordinary Knowledge in our provincial Affairs, which so conspicuously appear in the several Matters recommended to us. We are sensible of their Importance to ourselves, as well as to our Mother Country; and shall therefore, without Loss of Time, take them under our most mature and serious Consideration; and make not the least Doubt of having Your Excellency's Concurrence in all such Measures as shall be pursued, whereby our Proceedings may be rendered acceptable to our Most Gracious Sovereign, beneficial to *Great-Britain*, and advantagious to *South-Carolina*.

In the Commons House of Assembly,
the 25th of Novr. 1749. By Order of the House,

ANDREW RUTLEDGE, Speaker.

The following is the Governor's Answer to the above *Address.*

Mr. Speaker, and Gentlemen,

A Governor, who has the silent Assent of his own Conscience, joined with the Approbation of his Royal Master, and the Praise of the People, must be compleatly happy. These are real Riches, and the only Riches I desire to lay up amongst you, and, as they are more honourable, so they are more durable, than the Plunder of Provinces.

I thank you, for your kind Acceptance of my Services: And am determined to endeavour to preserve your good Opinion, by the same Method by which you are pleased to think I have deserved it, that is, by doing every Thing in my Power, to promote the Prosperity of the Province.

PHILADELPHIA, October 26.

Extract of a letter from a gentleman in Annapolis to his friend in this place, dated October 14, 1749.

" This day came up the bay to this place, the sloop Hopewell, Capt. Strachan, who sailed a few weeks since for Barbados, but meeting with excessive hard weather about 50 leagues from the capes, was obliged to return, and put in at *Norfolk* in *Virginia*, where he sold his cargo. He brings a most melancholly account of a violent storm, that happen'd last Saturday night and Sunday, which has done incredible damage near the mouth of our bay: Capt. Strachan is a man of credit, and from him I have the account, which I shall give you in as succinct a manner as possible. On Saturday, he being at Norfolk, the wind began to blow hard, and at about one or two in the morning was very violent at N. E. with rain, and kept increasing, but the hardest of the storm was from ten till two on Sunday. The tide rose 15 feet perpendicular higher than usual, and forced ships a shore where the water was never before known to flow, many ships and other vessels being now so far from the water, and some of them loaded too, that they will cost more than their worth to get them a float, if it be practicable at any rate; several ships on the stocks were floated off; all the wharffs, and many warehouses are intirely carried away. A warehouse of Col. Tucker's, 60 by 30, with about 90 pipes of wine, and 40 hogsheads of rum below, and a quantity of corn and oats in the loft, was bore off its foundation, and carried about a mile and a half, and landed upright on the other side of the river, without any damage to the liquor or grain; as it came along by the Hopewell, it just touch'd her quarter, but did her no damage. I am not philosopher enough to give you any certain reasons for the warehouse sailing upright; but imagine the buoyant spirits were pretty equally placed under the joists of the chamber floor, which just kept that from the water, and consequently the grain from wetting. Capt. Strachan told me, he saw anchors of above 1000 weight floating about on the wharffs, which were bodily carried away, wood and stones together: He says the river was almost full of lumber, masts, yards, bales, casks, *&c.* And by a letter from a merchant there, there is advice, that it is supposed that town has suffered upwards of 30,000 pounds damage. Several gentlemen now at Norfolk, who were at *Jamaica* a few years ago, when that terrible hurricane happened there, which destroy'd many men

of

of war, ſay, this was much more violent than that. The tide kept continually fluxing, and run at the rate of five knots an hour, overflow'd all their ſtreets, and has carried ſome ſmall craft near a mile from the common high-water mark, and left ſome in corn fields. The damage done to the ſhipping there and thereabouts is unknown, but I ſuppoſe we ſhall have the particulars in the next Virginia Gazette." At Hampton, there is likewiſe much damage done; a noted tavern there, kept by Mrs. Hawkins (who gave the name to mother Hawkins's-hole) was eight feet in water, and a yawl was paddled thro' her paſſage. A little this ſide Hampton, at a place called Back-river, three families, men, wives, and children, it is ſaid, are all drowned. In Worceſter county, which lies on the ſea ſide in this province, the tide roſe to a prodigious height, and has done vaſt damages: I am told that capt. Newbold, in a ſloop, is far enough from the water, high and dry in an apple orchard. The loſſes ſuſtained by the drowning of horſes, cattle, ſheep, hogs, &c. is yet unknown; but we hear are very great. In ſhort I never heard ſuch accounts before, and dread what is to come. Here we had no damage done worth mentioning, having had a higher tide the ſummer paſt: which makes me hope that this ſurprizing flow of water, did not happen in any latitude farther North.
